AMUSEMENTS

"LESSONS IN LOVE"

AT BUTLER TODAY

Production of "Lessons in Love," said to be the best Constance Talmadge picture yet made, was temporarily interrupted in New York when the star got married and went on a brief honeymoon.

The picture, which will be the attraction of the Butler Theatre today was but half finished when the studio was surprised by the news of the wedding, and Director Chot Withey had to wait a week before resuming work with the company.

The ceremony took place at Greenwich, Conn., being performed by a justice of the peace, after which Miss Talmadge left with her husband, John Plagiolou, for a short honeymoon at Atlantic City.

Their honeymoon was of necessity brief, as "Lessons in Love" had to be delivered to Associated First National Pictures, Inc., at an early date, and for that reason the star returned to work on it without any undue delay. And, according to Director Withey, she did the very best work of her career.

Mr. Plagiolou is a wealthy New York importer and exporter of cigars and cigarettes. He is 22 years old, tall, dark and handsome. The Plagiolous have a suite at a New York Hotel.

SALT LAKERS PLAN TO REOPEN MINES

A party of five mining men from Salt Lake City stopped in Tonopah last evening, on their way to Grass Valley, California, where they will make the necessary initial steps toward opening up the Grass Valley Bullion property, which has been idle for some years. Those comprising the party, who were traveling southward in three motor cars, were: Henry I. Moore, capitalist, and formerly interested in Nevada mining ventures; Edward L. Howell, J. J. O'Connor, P. A. Williams and E. E. Logsdan.

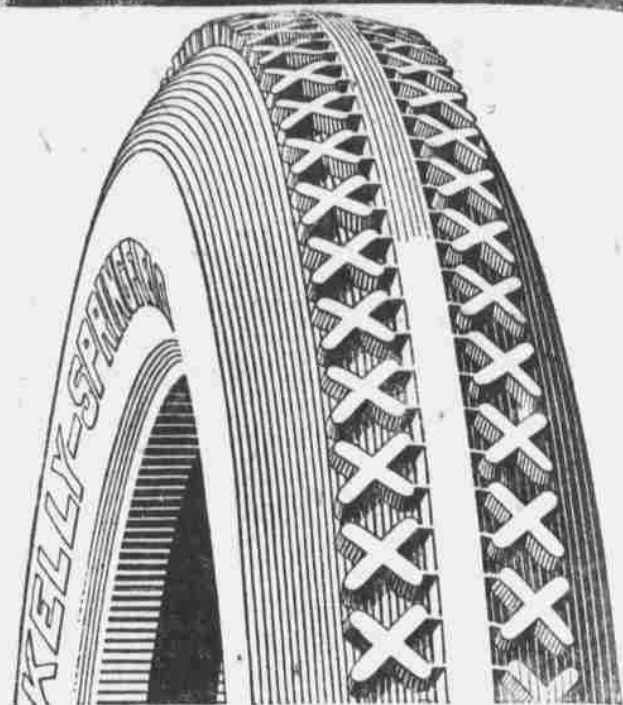

The Grass Valley Bullion mine was a consistent gold producer up to the time that the earth disturbances, during the San Francisco earthquake in 1906, rendered it unworkable through the admission of an immense quantity of water. Upwards of \$2,000,000 was taken from the property prior to that time, and it is confidently expected by the gentlemen who were here last evening that they will be able to very shortly place it in operating condition.
